

TECHNICAL DATA SHEET

Data

03.11.2022 r.

Product name

Sample/Vento-bag 1,5 kg/Mr Paper WS70/Viscose net also called ZD5467 PARMENTINE ZRP SALADE VAPEUR RISSOLEE 1.5KG.

Product description

The packaging made of a paper, coated with a heat-sealable layer, combined with a viscose mesh, printed with water-based inks, intended for food packaging.

Technical data*

| Parameters | | Unit | Result | Standard |
|---------------------|----|------------------|--------|-----------------|
| Thickness | | mm | 0,1 | Internal method |
| Grammage | | g/m ² | 70 | ISO 536 |
| Tensile strength | MD | kN/m | 7,7 | ISO 1924-3 |
| | CD | kN/m | 4,2 | ISO 1924-3 |
| Elongation at break | MD | % | 2,6 | ISO 1924-3 |
| | CD | % | 7,2 | ISO 1924-3 |

* the parameters apply to the paper part of the package. If you need information about the mesh, please contact us

Additional information

Features

Based on renewable resources

Heat sealable

High material strength

Excellent printability

Application

Especially for fruit and vegetables

Storage conditions

Rolls should be stored in their original wrapping on pallets in dry, closed, sun and rain protected place minimum 1 meter from heating units, in temperature up to 30°C, the relative humidity should be between 50 and 70 %. Storage conditions should eliminate any risk of wrapping deterioration. Paper is suitable for use 12 months from the date of delivery.

Admission to contact with food

Packaging meet requirements of the European Regulations and Directives as well as Polish Legislation in the terms of materials and products designed for contact with food.

For further compliance information related to food contact, please contact your local sales representative for a Declaration of Conformance (DoC) document.
