selected products catalog

An advertisement for Silbo Packaging. The top half features the brand name "SILBO" in a large, bold, black sans-serif font, with "Packaging" in a smaller black font below it. To the right of "Packaging" is the tagline "good for the planet" in a green, handwritten-style font. The bottom half shows a bag of "La Grenaille" potatoes. The bag is purple with white text and a window showing the potatoes. It features a "PRODUCE OF FRANCE" logo and a "ZERO PLASTIC" logo. To the left of the bag is a smaller bag of "La Grenaille" potatoes. The background of the advertisement shows a kitchen counter with various fruits and vegetables.

**We have been producing packaging  
for customers around the world  
for over 20 years.**

Our mission is to provide the most sustainable solutions for the food and non-food industry, representing the highest quality on the market.

We have the courage to innovate and create custom-made packaging. Our reliability is confirmed by international certificates and emphasis on continuous development.

Join us and support your brand with truly ecological packaging.

#### **Recycling or composting?**

Whatever you choose, let your packaging be

*good for  
the planet*

# to eliminate plastic in packaging

Mr Paper is designed for easy segregation and simplified recycling in accordance with the principle of a circular economy. This proves that paper can in many cases successfully replace plastic in flexible packaging. Designed with usability, ecology and the safety of food storage in mind.

# MR PAPER

- Intended for direct contact with food
- made of a material based on renewable resources
- in accordance with the principles of eco-design
- design to recycling
- highly durable
- made of paper covered only in selected places with water-based weldable layer
- printed with high-quality, environmentally friendly, water-based inks; flexo HD standard, resolution 150 dpi
- suitable for vertical and horizontal packaging machines
- packaging is available in two color versions: brown kraft and white smooth

# MR PAPER

Our Packaging is always designed individually according to the customer's guidelines and to the specificity of the packed product.

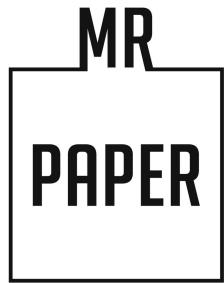

Mr Paper packages do not absorb water, making them also suitable for pre-washed fresh vegetables and fruits. Mr Paper is equally suitable for nuts and grains, groats, rice, toys, clothes and to many more.

SILBU

# SILBO

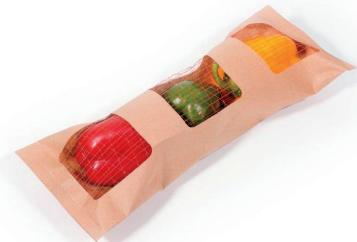

## gives many possibilities

Mr Paper packages can be made in various forms. We can choose the weight of paper, make tight welds and cut windows of the desired shape. The refinement of the packaging are nets, perforations, cellulose windows or cut forms.

### A natural combination of paper and linen

In order to completely eliminate plastic in Mr Paper packaging, we offer paper packaging with linen mesh. These are organic fibers from French fields with the highest ecological and quality values.

# ecological and responsible

Paying the utmost attention to the quality and ecology of MR PAPER packaging, all our paper packaging is marked with the FSC and PEFC certificates we have obtained. Thanks to this, you can be sure that our packaging raw materials come from responsible sources. Forest resources are regenerated, animal habitats are protected, and people's work is safe and well paid.

MR  
PAPER

As a manufacturer, we are responsible for each of our packaging throughout its entire life cycle.

**Decisions already made at the packaging design stage account for as much as 80% of its environmental impact.** That is why we have closed our offer in three pillars - Biosil, Monosil and Minisil - that define the ECO-DESIGN STANDARDS, just as the cycle in the management of the planet's resources should be closed.

# Water-based printing

At Silbo, we do not use inks based on pathogenic and dangerous alcohol solvents in printing packaging.

Printing with water-based inks is ecological, efficient and of excellent quality. Its use does not result in the emission of toxic volatile organic compounds (VOCs).

To confirm these properties, SILBO packaging is marked with a special symbol "Water-Based-Print"

You can find out more about our water-based printing technology by scanning the code.
